SUBJECT: Organizing a zonal level Symposium on "Application of Bio-Statistical Methods in Epidemiological Study Designs".

Dear Sir/ Madam,

On the occasion of World Statistics Day on 20th October, Department of Community Medicine, Himalayan Institute of Medical Sciences, Swami Rama Himalayan University is conducting the 1st Annual Symposium on Clinical Biostatistics under the theme: "**Application of Bio-Statistical Methods in Epidemiological Study Designs".**

Biostatistical Methods in Epidemiology provide an introduction to a wide range of methods used to analyze epidemiological data. Delegates will acquire the expertise necessary to design and implement basic and applied research in disease etiology, control and prevention. Moreover they will become competent users of critical health related information as well as proficient in the use of epidemiologic research methods applicable to various health (hospital) and public health (community) related settings.

The Symposium is intended for statisticians, epidemiologists, academician & clinicians and members of other disciplines, such as nursing & other paramedical staff, interested in the field of clinical biostatistics.

You will appreciate, that such an initiative is a felt need of the hour. We have invited faculty of national repute for this 8 hours Symposium.

Regards,

Dr. Jayanti Semwal
Prof & Head
